EXPERIENCES

Synched Studios | Queens, NY — December 2025–Present

Web Design & Development Intern

- Built and maintained client websites using HTML, CSS, JavaScript, WordPress, and Cloudflare tools including D1 databases and R2 buckets; used Google Analytics and Microsoft Clarity to review site performance and user behavior.
- Used Claude Code and OpenAI Codex as part of regular coding, research, debugging, testing, and prototyping workflows while communicating with clients and troubleshooting website issues.
- Supported Microsoft 365 Admin, Microsoft Azure, and Microsoft Entra; improved page layouts, branding, navigation, and responsive design.

Lirvana Labs | Queens, NY — June 2026–August 2026

AI Co-Design Intern

- Co-designed plans for AI-powered learning tools using student interviews, educator feedback, and research on academic support needs.
- Collaborated with principals, administrators, students, and educators; presented ideas and discussed educational technology with the Superintendent of Queens North.
- Translated research findings into clear product recommendations for future development and school implementation

VOLUNTEER

Flushing High School Campus | Queens, NY — March 2025–Present

Camps Lighting Designer

- Lead lighting design and operation for school productions, including School of Rock and Grease, using the ETC Element lighting board and Eos software.
- Programmed 108+ lighting cues for School of Rock and 110+ for Grease; coordinated spotlight operators, supported rehearsals and performances, and helped train crew members

Dream Out Loud | Queens, NY

Tech Director — September 2024–Present

- Created attendance automation with automatic emails and an entry ticket-scanning system used for 580 students; supported presenter technology and managed equipment and supplies.
- Led a stress-management workshop for 30 students per period across four periods (120 students total), organizing presentation content and event logistics

REVELVANT SKILLS

- Web / Cloud: HTML, CSS, JavaScript, WordPress, Cloudflare Workers/Pages, D1, R2
- Analytics / Administration: Google Analytics, Microsoft Clarity, Microsoft 365 Admin, Microsoft Azure, Microsoft Entra
- Development Tools: Claude Code, OpenAI Codex, GitHub; Microsoft Office Suite; Adobe Photoshop, Illustrator, Premiere Pro
- Technical Support: Windows, MacOS, Chromebooks, Smartboards, and general troubleshooting.
